HEYCO

HEYClip™ MaxRunner® Cable Clip Array

Accommodates up to 12 Cables, Clip Mount

The Ultimate in Solar Wire Management

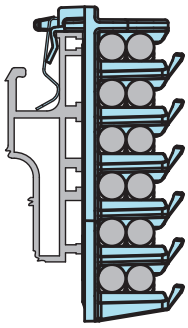
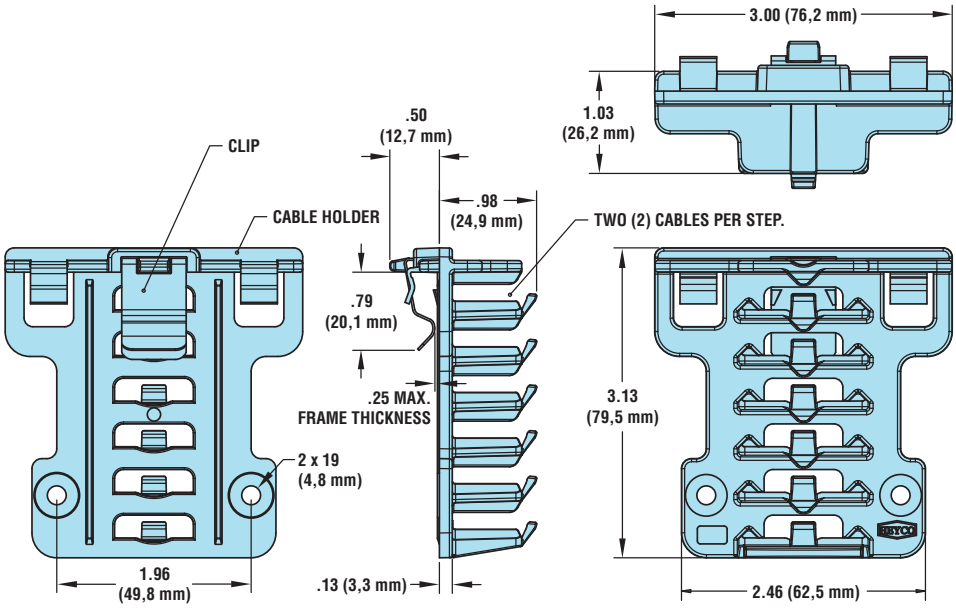
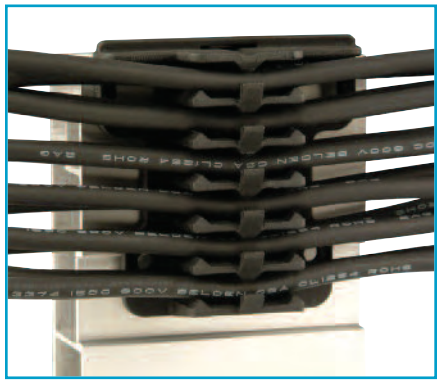
- Patent Pending design is the ultimate in solar wire management.
- **Holds up to 12 cables** with wire diameters ranging from .20˝ (5,2 mm) to .28˝ (7,2 mm).
- Constructed from PPE+PS flame retardant Noryl material with a 301 stainless steel mounting clip.
- The versatile stainless steel mounting clip is designed to secure the holder to a wide variety of aluminum extruded mounting frames of various thicknesses and profiles up to .250˝ (6,4 mm) thick.
- The injection molded wire holder has a V0 flame rating and a UV (f1) rating for excellent resistance to outdoor exposure.
- Molded internal locking tabs securely hold the cables in place preventing side-to-side movement or slippage of the cables.







Materials	PPE & PS Noryl with 301 stainless steel mounting clip
Certifications	UL Listed under Underwriters' Laboratories File E54523
Flammability Rating	94V-0
Temperature Rating	Maximum material rating 203°F (95°C)
